

Rebuilding
Together®

Of Greater Charlotte

ABOUT SHE BUILDS

Rebuilding Together of Greater Charlotte:

Rebuilding Together of Greater Charlotte is committed to providing safe and healthy homes and communities for everyone. We mobilize volunteers and contractors to provide repairs that make homes safer, healthier, and more energy-efficient for our neighbors in need. We also actively partner with other local organizations to connect the communities we serve with additional resources to help them create healthier, more vibrant neighborhoods.

She Builds:

One of RTGC's repair programs, She Builds, is women-led and women-focused. It provides critical repairs for women-headed households and women-focused community spaces to empower women to maintain safe and healthy homes, make a difference in their communities, and build a supportive community network.

My Sister's House:

We are thrilled to announce the launch of the first She Builds project. A transitional living program, My Sister's House empowers single, adult women to become self-sufficient by providing safe, temporary housing and life skills training.

ABOUT THE PROJECT

The She Builds project will make repairs and modifications at My Sister's House, where a safe living environment and caring compassion are provided to women transitioning from homelessness. The repairs will be done over three volunteer days on June 26-28, 2024 at My Sister's House.

General:

We will paint walls, assemble and install storage space, and provide and install appliances in multiple areas.

Exterior:

We will provide general landscaping improvements, build and install outdoor benches, and replace the exterior back door for privacy.

Reception Area:

We will repair the leaking window and commission a local artist to design and work with volunteers to paint a mural across from the reception desk.
